

POLITECNICO
MILANO 1863

Dear Students, Dear Colleagues,

we have completed the organization of the study spaces available at the University for the start of the semester.

In every campus of Politecnico there are spaces available for study, open and available without reservation; the list is published at this [page](#).

The number of places available has been determined to guarantee social distancing and a completely safe stay in the spaces of the university.

Considering all our campuses, both in Milano and the external ones, we have a total of about 3000 places.

The classrooms, if not occupied by the lessons, can also be spaces for study, if social distances are maintained. However, we must call on all of you to work together to ensure that safety conditions remain. We know we are asking for a sacrifice but it is necessary to keep a one meter distance, to wear the mask and to wash your hands frequently with the sanitizing fluid that you will find at the university.

Also the [libraries](#) have returned to normal opening hours, making available all the places allowed by the safety regulations.

For the libraries it is compulsory to reserve a seat through the [Affluences](#) app.

For reports on the management and organization of activities please write to the following address: monitoraggio@polimi.it

Best regards

Ferruccio Resta

Rector of Politecnico di Milano
