

POLITECNICO
MILANO 1863

Dear Colleagues,

Given the recent national Green Pass requirements to access university premises starting from September 1 2021, the Lombardy Region has launched a special vaccination programme for academia.

We have been assigned a reference vaccination hub located at the Fabbrica del Vapore, via G. Procaccini 4, Milan, but you can access any hub in the region. No booking is required; you will have to declare your affiliation to the Politecnico di Milano.

Further information and full list of vaccination hubs are available on the portal <https://prenotazionevaccinocovid.regione.lombardia.it/> ; also staff from our Regional Campuses can access the portal.

All our university staff, including PhD students, research fellows and adjunct professors, both Italian and international, can participate in the programme as no regional health card is required.

Best regards

Graziano Dragoni
Direttore Generale
