

**POLITECNICO**  
MILANO 1863

Dear students,

Given the recent national Green Pass requirements to access university premises starting from September 1 2021, the Lombardy Region has launched a special vaccination programme for academia and university students.

You can book your vaccination from Monday, August 16, 2021 through the regional portal <https://prenotazionevaccinocovid.regione.lombardia.it/> to any vaccination hub in the region.

We have been assigned a reference vaccination hub located at the Fabbrica del Vapore, via G. Procaccini 4, Milan.

Further information and full list of vaccination hubs are available on the portal; also students from our Regional Campuses can access the portal.

All students, including Italian students from other regions or international students, can participate to the programme as no regional health card is required.

Best regards

Graziano Dragoni  
General Director
