Uniwersytet Artystyczny w Poznaniu (Academy of Fine Arts in Poznań)

Description

The Academy Of Fine Arts In Poznań is one of the major fine-art academies in Poland. It was founded in 1919 as the State School of Decorative Arts. The University of the Arts Poznan (UAP) is well-known for its open structure that allows students to engage in various kinds of artistic activity. Study plans of particular degree programmes consist of theoretical classes and practical classes taught in studios. Most studios are open for students from different degree programmes and years of study, which allows a constant flux of ideas, enhances creativity and opens students to different points of view. Exchange students that come to UAP are not restricted only to courses from the faculty that offers their major. Instead, they are allowed to select art or design courses from different faculties.

Strengths

- The University has a network of art galleries located in the very center of Poznań – Miejskie Galerie UAP (in cooperation with the City of Poznań and the Rarytas Foundation), an art gallery of the Faculty of Painting and Drawing, and a place of open-air painting, workshops, as well as residencies for artists.
- In the first two weeks of each semester, Faculty Coordinators will organized tours around studios to familiarize students with their teaching content and provide some practical information for international students.
